Professional Summary

Computer Science Engineering graduate with added experience on Software Testing and hands-on full-stack development project.

Education

Bachelor of Engineering in Computer Science *Dec 2022 – Present* ***CGPA : 8.6***
Visvesvaraya Technological University, Belagavi

Pre-University Education *June 2020 - April 2022* ***Percentage: 80%***
R.N.Shetty Composite PU College, Kundapura

SSLC *June 2017 - April 2020* ***Percentage: 90%***
V.K.R Acharya Memorial English Medium High School, Kundapura

Skills & Technologies

- Programming Languages: Java, Python, JavaScript, TypeScript
- Frameworks: Spring Boot, React.js, Tailwind CSS
- Databases: MySQL, MongoDB
- Testing Tools: Selenium, Fireflink, Postman
- Version Control: Git, GitHub
- CI/CD: GitHub Actions

Experience

Software Test Engineer - QSpiders *Feb 2026 - Aug 2026*

- Accelerated QA delivery by 20% through 100+ manual and automated test cases, driving faster release cycles with functional, regression, smoke, integration, and end-to-end testing for ShoppersStack.
- Boosted automation efficiency and product reliability by engineering 50+ resilient workflows, optimizing 50+ UI locators, and ensuring end-to-end defect traceability in Fireflink from requirements to resolution.

Projects

StaffCube - AI Powered Employee Management System *June 2026 - Present*

Technologies used: React.js, Tailwind CSS, Java Spring Boot, MySQL(Development Env)

- Designed UI pages and created interactive prototypes in Figma, improving stakeholder review speed.
- Engineered 7+ core features in backend for the system using Java Spring Boot.
- Architectured and planned the system workflow of the application.
- Designed the architecture of the application to support registration for multiple companies/organizations **(Multi Tenancy),** isolating each company data.

Shoppersstack - E-Commerce Application *Feb 2026 - Aug 2026*

Technologies used: Python, Selenium, Fireflink

- Boosted Agile sprint efficiency by 40% through automated test suite development.
- Tracked and resolved 200+ defects in Fireflink, ensuring complete test-case traceability.
- Accelerated release cycles by integrating CI/CD pipelines with GitHub Actions for continuous testing.

Certifications

Software Testing - QSpiders - A Unit of Test Yantra Software Solutions Pvt Ltd. **View Completion Certificate**

Google Data Analytics - Coursera **View Certificate**

Programming fundamentals with Python - Infosys Springboard **View Certificate**
